Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 8, 15, 16, 23, 25, and 28 are rejected under 35 U.S.C. 102(b) as being anticipated by Rivitz #1,543,723. Rivitz discloses a ladder support comprised of flexible base member 3, ground engaging parts 20, having over one hundred projections, ladder engaging part/ abutment members 1, and handle 5.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 13, 26, 27, 29, and 30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rivitz as applied to claims 8, 15, 16, 23, 25, and 28 above. Rivitz fails to disclose steel ground engaging parts or a polymeric base member. The use of plastics or steel would be obvious updated fabrication materials to one of ordinary skill, notwithstanding the date of invention being the early 1920's. Therefore, to one of ordinary skill in the art, it would have been obvious to fabricate the ladder support of steel or plastics, this being no more than an obvious design choice not expected to produce any new or unexpected results. It would have been further obvious to maximize the number of ground engaging parts to over one thousand projections, this

being no more than a design choice determined through routine experiment and optimization, given the disclosure of more than one hundred projections.

Allowable Subject Matter

Claims 9-12, 14, 17-22, 24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hugh B. Thompson II whose telephone number is (571) 272-6837. The examiner can normally be reached on Monday thru Friday 9 am to 5:30pm.
